Art Unit: 2833

This application is in condition for allowance except for the following formal matters:

The claims are objected to as containing instances of poor wording (e.g. claim 1, line 5, a word or words appears to be missing between “another” and “at”; lines 9-10, “the indentation edge” should be – an indentation edge); each claim must be reviewed and corrected. The improper multiple dependencies must be corrected. The reference numerals should be removed from the claims. “apex” is found in the claims but not in the specification. “or at one of the bordering wall regions” (last two lines of claim 1) is not found in the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record discloses or teaches an indentation edge having a tangent which is orthogonal to the push through direction, the tangent being provided only at the boundary between the connection region and one of the bordering wall regions.
